

ANURAG GUPTA

Full Stack Developer

📞 9167243580 @ anuraggupta8309@gmail.com 🔗 <https://github.com/AGRLARK> 📍 Jogeshwari, Mumbai

SUMMARY

Innovative and results-oriented Full Stack Developer with a proven track record of success in both personal projects and professional roles. Proficient in a diverse range of technologies, including **Next.js, React.js, Redux, TypeScript, Node.js, MongoDB, Express.js, PHP, AWS (S3, EC2, SQS, SES, Lambda), Docker, Firebase**, and **Git**. Skilled in developing dynamic web applications, subscription-based platforms, weather apps, and UI clones for prominent platforms, specializing in the **MERN stack** and modern web technologies.

At **Workverse**, I serve as a **Technology Architect**, leading the backend and dashboard development for a **Simulation Game platform**. I designed and managed the complete backend using **Express.js** and **MongoDB**, handling user login, assessments, badge rewards, data collection, and certificate generation. Authentication is managed through **Firebase**, with secure token verification for Google and Apple devices using **OAuth2, Google Developer Console**, and **Apple Developer Portal**. I also built a powerful **Next.js dashboard** (with TypeScript + Tailwind CSS) for organizations to manage learners and license purchases. The system is hosted and scaled using AWS services like **EC2, S3, SES, SQS, Lambda, CloudWatch, IAM**, and **Route 53**.

Experienced in **deploying applications on VPS** using **Ubuntu, CentOS, Linux**, and other **Linux distributions**, with a strong focus on setting up and maintaining **CI/CD pipelines** for efficient and automated deployment. This ensures high availability, scalability, and streamlined production environments.

At **MCANSEY IT Services & Consulting Pvt Ltd**, I have contributed to multinational and Indian projects, delivering high-quality, responsive solutions with a strong focus on optimized user interfaces and seamless user experiences. My responsibilities include adhering to best practices in deployment, version control, and continuous integration, utilizing a diverse tech stack to build robust, scalable systems.

With hands-on experience in developing and deploying projects such as:

NewzCover: A real-time news platform.

The Fliq: A tech review and buying guide website tailored for Australian and Nigerian users.

Varcas Batteries: A product showcase website for battery technology.

24x7 Services Centers: A home appliance repair service platform.

EXPERIENCE

Technology Architect

Workverse

📅 02/2025 - Present 📍 Mumbai, Khar Road

Innovating Soft Skills

- Designed and developed the complete **backend system** for a **Simulation Game platform** using **Express.js** and **MongoDB**.
- Handled end-to-end features: user login, assessments, badge rewards, data collection, and **auto-generation of certificates**.
- Built an **admin dashboard** with **Next.js (TypeScript + Tailwind CSS)** for organizations to manage learners, track performance, and **purchase/manage licenses**.
- Implemented **authentication using Firebase**, and for enhanced security Verified tokens for **Google and Apple devices** through their respective developer tools.
- EC2** (hosting), **S3** (file storage), **Lambda** (serverless), **SES** (email), **SQS** (queues), **CloudWatch** (logs), **Route 53** (DNS), and **IAM** (permissions).

PROJECTS

NewzCover | Latest Breaking News, U.S.

📅 11/2024 - 2025

Latest Breaking News, U.S. Updates, Global Stories

- Developed **NewzCover**, a real-time news website delivering the latest breaking news, U.S. updates, and global stories.
- Created a user-friendly interface for seamless browsing and engagement.
- Integrated real-time news delivery, ensuring users stay informed about local and global events.
- Built using modern web technologies, focusing on scalability and usability.

EXPERIENCE

Full Stack Developer

MCANSEY IT Services & Consulting Pvt Ltd

📅 08/2024 - 01/2025 📍 Bhayandar, Mumbai

Transforming business Potential with Innovative Technology

- Expertise in designing and implementing end-to-end solutions using **Next.js**, **MERN Stack**, **VPS** and **AWS (S3, EC2)**.
- Proficient in deploying and managing applications with **MongoDB Atlas**, **Cloudinary**, **Firebase**, and **Docker**.
- Developed user-centric interfaces to ensure seamless user experiences across devices.
- **NewzCover**: A real-time news platform for global updates.
- **The Flique**: A tech-focused website targeting Australian and Nigerian audiences.
- **Varcas Batteries**: An advanced platform showcasing cutting-edge battery technology.
- **24x7 Service Centers**: A home appliance repair service center platform integrating frontend and backend functionality.
- Implemented robust **CI/CD pipelines** and version control strategies for scalable, reliable applications.

Full Stack Developer

InTouch Digital Marketing Institute Pvt. Ltd.

📅 05/2024 - 07/2024 📍 Malad, Mumbai

An institute focused on digital marketing education

- Developed and maintained websites for various clients using technologies such as React.js, Express Js, MongoDB & PHP
- Implemented front-end and back-end functionalities to optimize user experience and application performance
- Modified the website of the Intouch Digital Institute, including the addition of new pages for scholarships and backend functionalities for managing user contact details
- Worked in a service-based company environment, prioritizing the timely delivery of software solutions to clients
- Collaborated with team members on code reviews, debugging sessions, and continuous improvement initiatives to maintain high code quality and efficiency
- Designed and developed websites for spa clients, focusing on features tailored to the spa industry such as massage services and appointments
- Demonstrated adaptability and problem-solving skills in a fast-paced development environment, ensuring successful project delivery.

Full Stack Developer

A H Satija & Co

📅 07/2023 - 05/2024 📍 Goregaon, Mumbai

A professional consulting and development firm

- Developed a restaurant application leveraging TypeScript, React, Redux, and Git
- Implemented robust front-end and back-end functionalities to enhance user experience and application performance for the restaurant app
- Proficient in React within the MERN stack, contributing to the full development lifecycle of the restaurant application
- Collaborated with team members to deliver high-quality, scalable software solutions tailored for the restaurant industry
- Participated in code reviews, debugging sessions, and continuous improvement initiatives to maintain code quality and efficiency
- Demonstrated adaptability and problem-solving skills in a fast-paced development environment focused on restaurant app development.

Front End Developer

APML

📅 03/2023 - 06/2023 📍 Goregaon, Mumbai

A logistics company providing packing and moving services

- Developed a Dynamic React table for enhanced data visualization
- Designed and implemented a user-friendly Dashboard for Agarwal APML Packers And Movers, providing key insights and functionalities
- Utilized MongoDB for efficient activity tracking and management
- Passionate about delivering intuitive user experiences.
